Media kit

Book Synopsis:

Welcome to the Olde Realm! One of mystery, intrigue, and ancient powers stemming from Greek mythology.

For the past seven years, Monica and Dare Browning have been readjusting to their new lives as their eldest brother, Trevor, became their legal guardian. With their parents deemed deceased from an amateur expedition gone wrong, life appears to be finally moving on. That is, until Trevor is kidnapped in front of their house and an Ancient Greek warrioress speaks to Monica in a dream.

Now, they are in search of a strange woman with old world powers and a fondness for privacy, but that is only the beginning. Little did the siblings know of the Olde Realm and the mythical creatures living amongst us. From Kurzians to Celtic Nymphs and Knights of Valor, the past is more than simple text in history books. Where there is great wonder and power, however, deep darkness and mystery reside as well.

Will Monica and Dare survive to save their brother and discover the truth of their parents' disappearance? What does Trevor's boss want with him and a secretive book from places unknown? Why is a man named Taminus after the Browning kids? And just who is the woman called Vectra Tillerman?

Shorter Book Synopsis:
